First Set of Questions-and-Answers (Qs&As)

Request for Quotations No. 19JA80-21-Q-0848  
Acquisition of 2-ton truck for U.S. Embassy Tokyo

Question 1:

Question regarding the body length: 4,690mm – 6,170mm stated under specification of the required 2-ton truck.

- 1) Does the body length mean the length of the cargo or the length of the entire truck?
- 2) And what is the reason for including more than one dimension?  
(4,690mm, 6,170mm)

Answer 1:

- 1) The body length means the length of the entire truck
- 2) The length is the range, where the length of the vehicle should be between those two numbers. The Embassy Tokyo does not want a truck that is too long to drive easily.
